We all just need to make sure we coordinate next time. At the very least, we should know what the other does.

I had never even heard of you guys before this email.

Thanks. Remember that 99.99% of the people viewing this don't work in the industry, which is why we asked. We want to make sure it's as plain English as we can get.

I realize you're getting hit on all sides. We'll try to only ask stuff that we absolutely need to.

Those of is that work with mines and do this work know the term blowout. It is a common term. The spin term is release.

Hi, this is the first time we've seen the term "blowout" seen with this (is on the graphic in the PDF).

Is that an accurate, public term to use with this?

Good Morning,

Attached is the map of the four continuous surface water sampling locations.

Thanks

John Lucotch
